

What Our Clients Are Saying

Michael McGurrin, Esq.

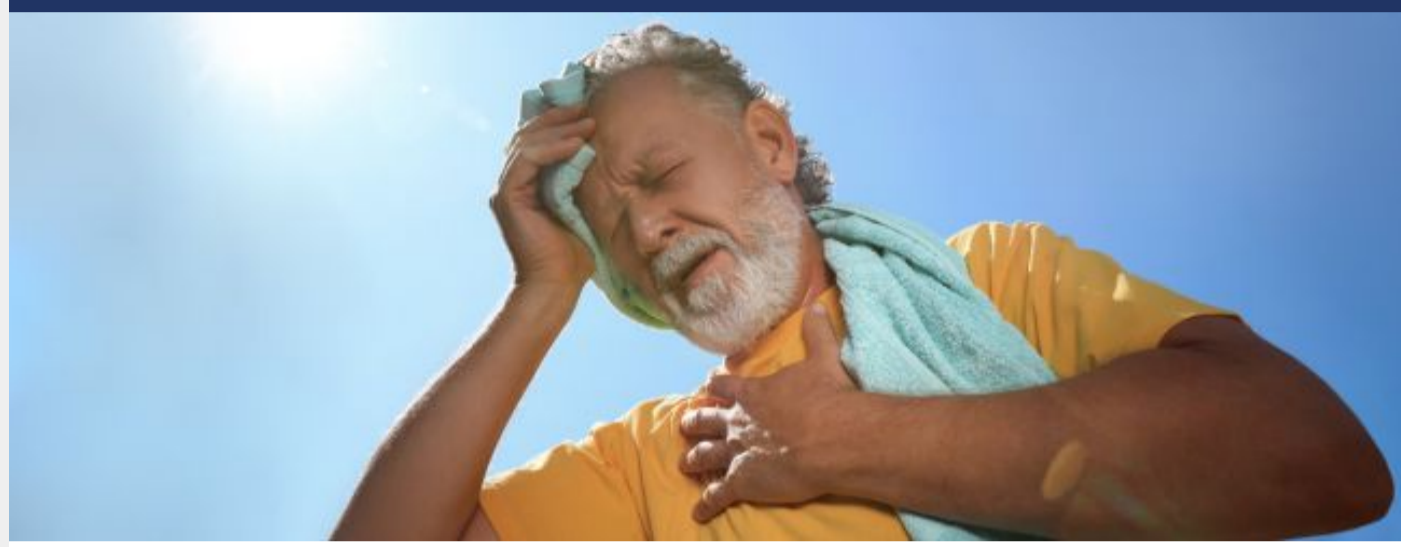

Brooke J. Elmi, Esq.

"When hurt at work, who else is looking out for YOU? Your employer? The employer's insurance company? Are you serious? NO WAY! Even when outside of Greater Philadelphia in PA, I was referred to Galfand Berger LLP and **Mike McGurrin** for help for my injury at work... If your employer or the insurance company insists you sign or threatens you if you don't sign or otherwise, CALL MIKE ASAP... Mike helped to settle my case favorably after only 6 months after I retained him! A good settlement like I received makes up at least for all those funds and time you were out after getting medical treatment and working to put yourself back together to go back to work."

"I had an opportunity to work with **Brooke Elmi** at Galfand Berger, LLP. Brooke was professional, kind and respectful. She took the time to listen to my dilemma. Brooke got right to work assisting me in resolving my issue with minimal inconvenience to me. I put my complete trust in Brooke and she did not disappoint. I would definitely call Brooke Elmi and the Galfand Berger team if I have any further need for their expertise in the future. I would also absolutely recommend them to my friends and family if needed."

HEAT SAFETY

As High Temps Sweep the Nation, Remember Heat Safety

Last summer was the hottest recorded summer in 2,000 years – and this summer has over a 60% chance of being even hotter. Millions of people in the tri-state area seek refuge from scorching temperatures at the beach or pool, cooling down along with family and friends. With plenty of the summer season still left ahead, it is a good idea to familiarize yourself with how to best (and most safely) handle the extreme heat.

WORK ZONE ACCIDENTS

Work Zone Accident? Get Legal Help and Safety Tips

Work zones are dangerous for both crews and drivers. The Pennsylvania Department of Transportation (PennDOT) reports that nearly 2,000 work zone **accidents** occur each year throughout the Commonwealth, largely due to drivers disobeying speed limits, engaging in distracted driving and other safe rules of the road laws, and, in some cases, poorly designed or maintained work zones.

KIDS' SAFETY

Kids' Health Alert: Peanut Allergies

Like many other allergies, peanut allergies can range from mild to severe. In some cases, they are fatal. Food allergies like these can be particularly difficult for parents and caretakers to navigate since they are not always able to monitor what their child is eating or may encounter while at a friend's house, school, playing sports or while engaging in other activities. Luckily, a recent article published in the Journal of the American Medical Association (JAMA) explains what parents need to know about peanut allergies and examines the steps they can take to prevent children from developing a peanut allergy.

FALL INJURIES

What to Do After a Slip and Fall Accident in a Grocery Store?

Going to the grocery store is a regular part of life. Many people are likely unaware that they are walking into one of the more dangerous shopping environments. **Slip and fall accidents** are one of the most frequently occurring and common causes of injuries, sending many people to the emergency room each year. Injuries suffered in grocery store accidents often prevent one from working and earning an income.
