## Warmer Weather: What Drivers Need to Know About Road Construction in Spring

Spring weather in Pennsylvania is generally ideal for road construction. Warmer temperatures allow for easier and more efficient work and for materials such as asphalt and concrete to set properly. According to the *Pennsylvania Department of Transportation (PennDOT)*, nearly 1,500 car accidents occur annually in work zones, resulting in over 100 injuries and numerous fatalities.

As the weather warms, knowing the unique dangers posed by road construction zones and how to travel through them safely is essential.

## Here's How to Avoid Medication Mistakes

According to the *Centers for Disease Control and Prevention (CDC)*, approximately one-third of American adults in their 60s and 70s take five or more prescription medications daily. Juggling different medication schedules, dosages, and instructions is a complicated process; in fact, as many as half of all patients fail to take their prescription(s) correctly.

Improper medication management can lead to dangerous, and sometimes even fatal, health outcomes. The American Association of Retired Persons, or AARP, identified some of the top medication mistakes that older Americans are most likely to make and gave realistic, helpful solutions that you can use to simplify your at-home medication regimen.
